Attach a map of your project showing the point of diversion/withdrawal and place of use. If platted property, be sure to include a complete copy of the plat map.

Describe any other use(s) of water.

Section 9. WATER STORAGE

Check the appropriate box for each question.

If you answered yes to any of the questions, your project may require a reservoir permit, or an approval from Ecology's Dam Safety Program. For criteria on reservoir permits contact the regional office in which your project is located.

Section 10. DRIVING DIRECTIONS

Provide detailed driving directions from the nearest town to the project site. If applicable, provide the site address.

Section 11. REQUIRED SIGNATURES

The applicant or authorized representative (e.g. the Public Works Director of a municipality, or the chair of a community water system) AND the landowner(s) of the place of use MUST sign the application.

If you require this document in an alternate format, please call the Water Resources Program at 360-407-6600. Persons with hearing loss can call 711 for Washington Relay Service. Persons with a speech disability can call 877-833-6341.

Section 5. WATER SYSTEM DESCRIPTION

Describe your proposed water system (include type and	size of devices used to divert or withdraw water from
source): Existing 1250 gal. concrete collection tank with	glacial clay and rock bottom built on top of artesian spring
site located on what now is known as Lot 1 (Trinidad) of	f subdivision 9905055003, parcel #0417335001. It was
built in the late 1960's or early 1970's by the former own	ner of the property, Joseph Holliday. The artesian spring
water was and still is diverted west, through a pipe, by g	ravity flow to what is now known as our Parcel 2 #
0417331700 (Newman) to another existing, completely of	enclosed (except for the top) 4500 gal. concrete holding
tank with pump and exsisting concrete pump house built	t around it. From there the water is pumped with a 1/2 horse
power pump to a large barn with living quarters and ano	ther barn for stock. We have the original Homestead on our
Parcel 2 (Newman) next to the pump house that we have	e traced back over 100 years ago, that used the Artesian
Spring water, also. We have been using the water since	1998, for domestic and stock. We do not know of any
exsisting water rights associated with this Artesian Sprin	ng. On August 16, 2007 in the presence of ourselves, a pr
Hydrologist Craig Russell, the Trinidad's, their attorney,	our attorney and a few others, we had the 1250 gal. tank on
the Trinidad property pumped free of water to discover h	how the tank refilled and it is verified by all, the water
comes out of the ground to fill the tank. We are enclosing	ng a copy of the Hydrologist's report to you.
We are currently in litigation with the Trinidad's over	er our right to withdraw and use the water. A copy of the
Stipulation and Order Granting Preliminary Injunction is	s enclosed as well the Spring Site Easement document as
provided by the seller of our Parcel 2 #047331700 as wa	as made part of our legal description (enclosed) to our
property	
We currently have approval of the spring site water use	pending with the Pierce County Health Dept., Richard
Hoesch.	
Section 6. DOMESTIC WATER SUPPL	LY SYSTEM INFORMATION
Complete A or B, and C below	
A.) Domestic Water Systems only	B.) Municipal Water Systems only
Designated market of compactions to be conved.	(defined under RCW 90.03.015)
Projected number of connections to be served: 1	Present population to be served water:
To a few diameters of the last	
Type of connections: barn w/living quarters & stock barn	Estimate future population to be served:(20 year projection)
(e.g., home, recreational cabin)	
C.) Water System Planning	
Do you have a Water System Plan approved by the Wa Division? ☐ YES ☒ NO	shington State Department of Health, Drinking Water
If yes, date plan was approved/ Wa	ater System Number:
Name of water system:	
Are you within the service area of an existing water sys	stem? YES NO
If yes, explain why you are unable to connect to the sys	. —
, , , , , , , , , , , , , , , , , , , ,	

Section 7. IRRIGAT	ION/STOCKWATER/OTHER FARM USES
Irrigation	
	ed to be irrigated under this application = less than oneACRES e irrigated on your attached map.
Stockwater	
List number and kind of stock	:40 beef cattle are watered, occationally, depending on the weather, 10 horses y
round, 2 goats year round	
Is the proposed project for a d	airy farm? ∐ YES ⊠ NO
Other Proposed Farm Uses	
Describe all proposed uses:
